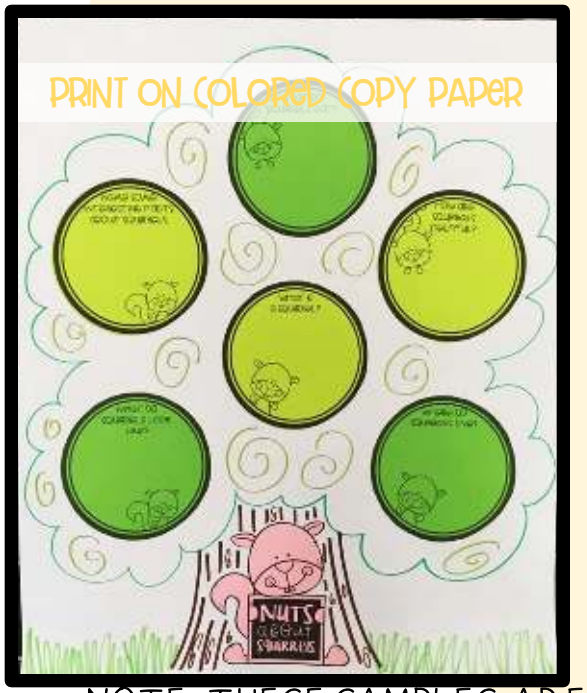
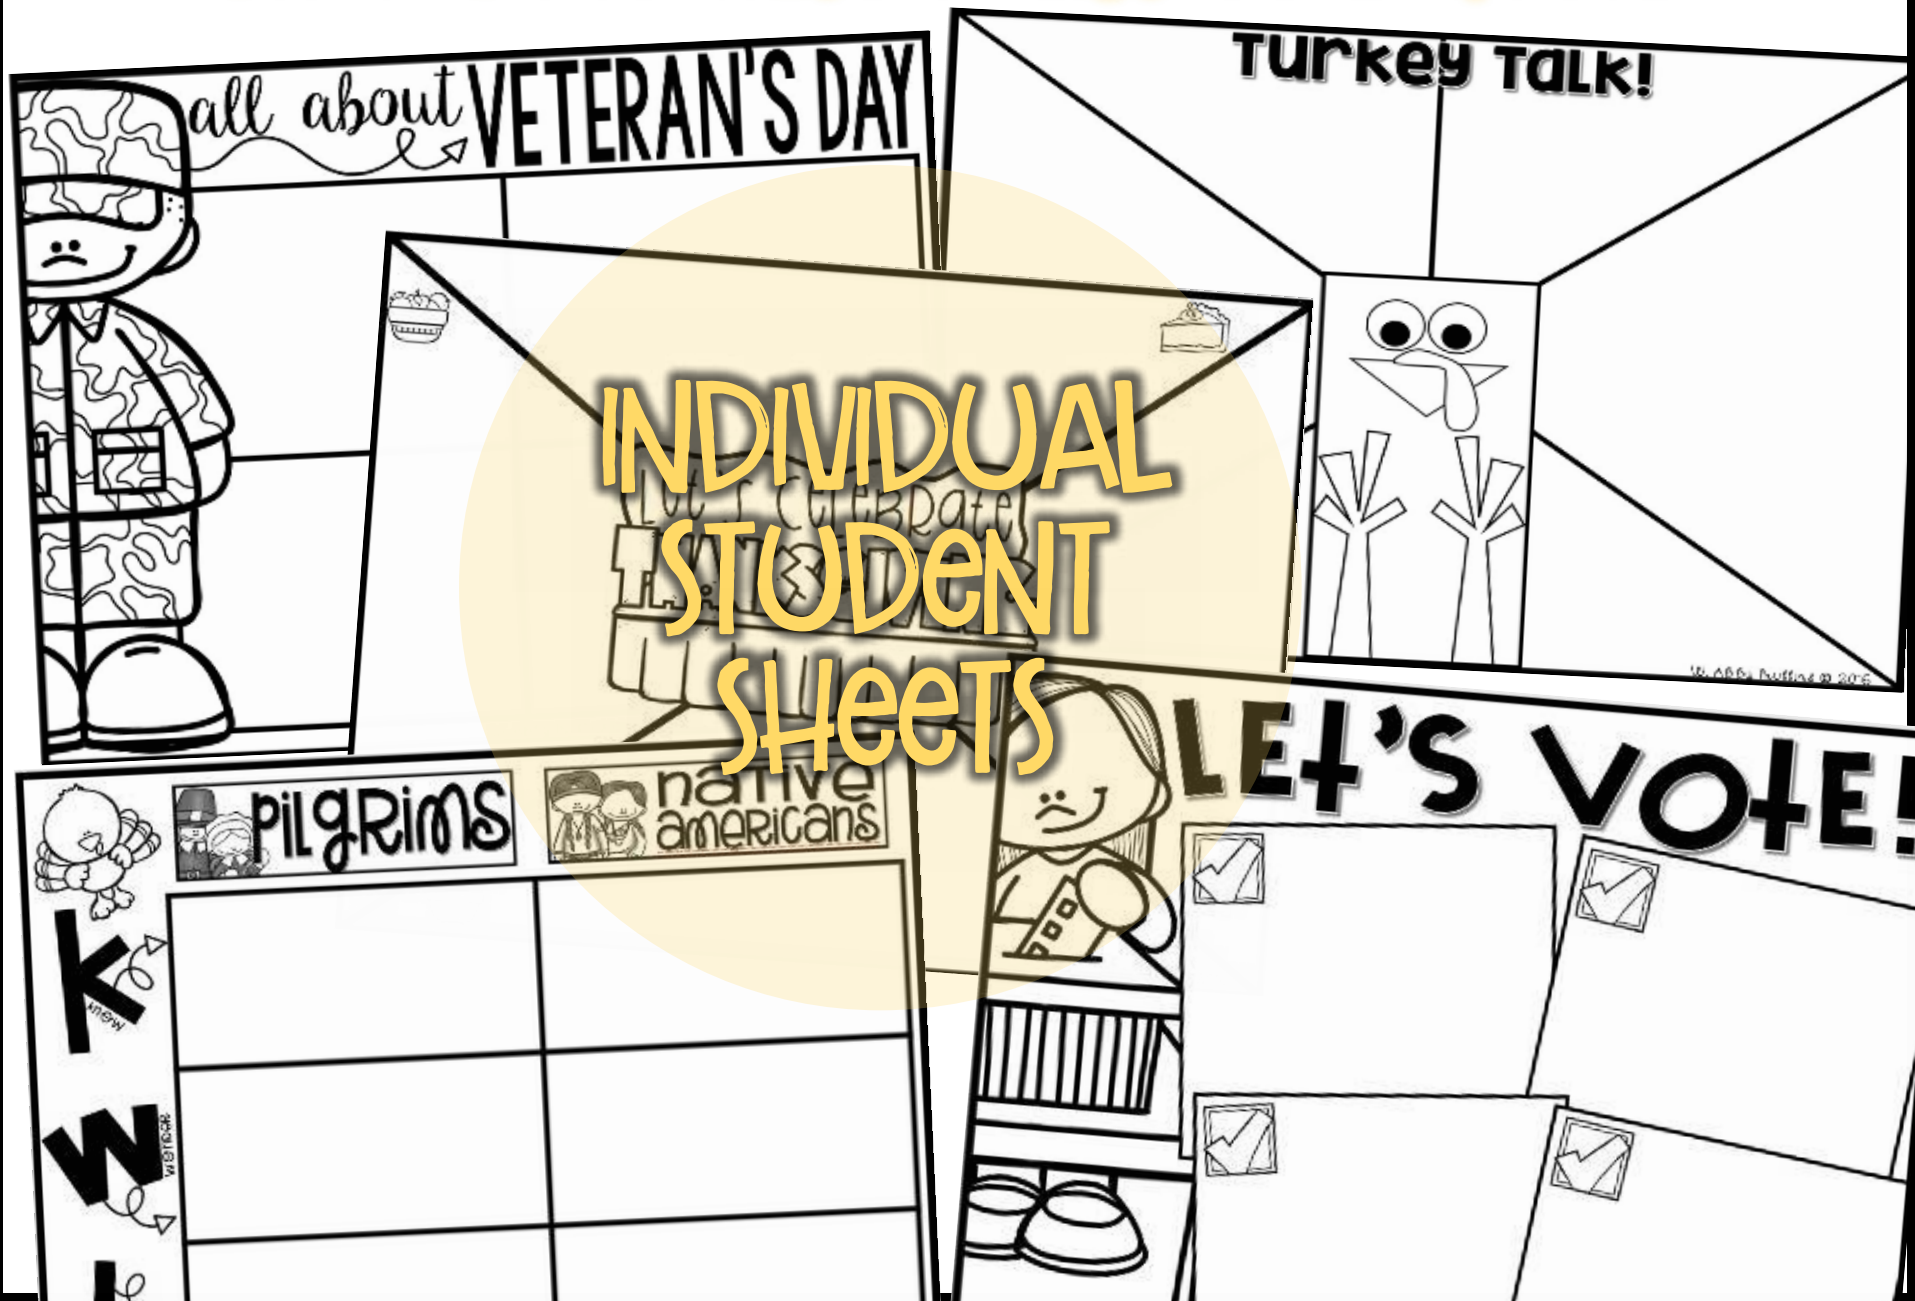
HOW TO USE THIS RESOURCE

Hey, y'all! I absolutely LOVE using collaborative anchor charts and class posters in my classroom. I use these to chart my students' knowledge as we encounter new content and thematic material. After our learning has been charted, I display the chart or poster where it can be easily accessed for reference or reminder.

These templates make assembling an anchor chart or poster a SNAP! Simply print, cut, and paste onto chart paper. You'll be ready for your students' touch in no time!

Don't want to print in color? NO PROBLEM! Print the black and white version and color (or not!). OR, print the black and white version onto your favorite colored copy paper!



NOTE: THESE SAMPLES ARE FROM THE SEPTEMBER ANCHOR CHART/CLASSPOSTER PACK!


I've included a corresponding individual student sheet that corresponds with the chart/poster!
Use to record current schema, new knowledge, or as a follow-up to a unit.
